Cosmébio Charter

Download the Cosmébio Charter

The goal of the charter is articulate a clear and simple concept for **authentically** natural cosmetics, **respectful of the following principles of precaution** :

1. FOR THR PRODUCTS :

a) Selection of the ingredients.

The marketing of cosmetic products whose ingredients are natural or from natural origins, and above all resulting from controlled Organic Agriculture.

- list of authorized ingredients *
- list of excluded ingredients *

* see reference frame

b) Selection of the transformation and manufacture processes.

Use of non-pollutants transformation and manufacture processes, respectful of the Mankind and the Environment, throughout the network.

- list of authorized processes *
- list of excluded processes *

* see reference frame

c) Obligation of guarantees.

The conditions of the contract respected and ingredients certified by independent control organizations, validated by Cosmébio and the State.

2. FOR PEOPLE

Putting in place steps for :

- the respect and well-being of the consumers
- the right to complete information
- the need of transparency concerning the ingredients as well as the finished products.

- Minimum 95% of natural ingredients or natural origin ingredients
 - ingredients resulting from organic agriculture: Minimum 10% of the ingredients total
 - ingredients resulting from organic agriculture: Minimum 95% of the certifiable ingredients
- Maximum 5% of ingredients of synthetic origin

- ECO logo

- Minimum 95% of natural ingredients or natural origin ingredients
 - ingredients resulting from organic agriculture: Minimum 5% of the ingredients total
 - ingredients resulting from organic agriculture: Minimum 50% of the certifiable ingredients
- Maximum 5% of ingredients of synthetic origin

3. FOR THE ENVIRONMENT

a) Respecting life

Respect for various orders of nature, including:

- prohibition on the testing of animals
- use of alternative methods of products evaluation (toxicity, effectiveness)

b) By specific measures

Respect for the environment on all levels :

- ways to obtain raw materials,
- transformation processes,
- cleaning processes,
- conditioning processes,
- biodegradability of finished products,
- recycling of packaging and the total of the waste resulting from their manufacturing...

4. FOR THE ECONOMY AND SOCIETY

Engagement with the goal of sustainable development and fair trade.
